Cordon Blue Global Services Ltd is a premier multidisciplinary construction and engineering firm, delivering landmark projects across Nigeria.

Our Expertise

- High-Rise & Commercial Construction
- Civil Engineering & Infrastructure
- Luxury Residential Development
- Project Management & Consultancy
- Architectural Design & Build

CIVIL WORKS

Karameh Industrial City

Scope of Work: We participated exclusively in the **civil engineering works** for this major industrial complex. Our mandate covered fundamental road infrastructure, drainage systems, site preparation,

and structural foundations essential for the facility's operations. This project underscores our capability to handle large-scale industrial requirements with precision.

ENERGY INFRASTRUCTURE

Gastech CNG Station

Project Role: Execution of specialized **civil engineering works** for the CNG Mother Station. Our participation was focused on the critical civil construction phase, ensuring structural integrity for heavy

energy systems. This involved reinforced concrete works, heavy-duty pavement for industrial traffic, and precise foundation engineering for compression equipment.
